Yummy in the Tummy

13770 West State Road 84, Davie
www.yummyinmytummy.com

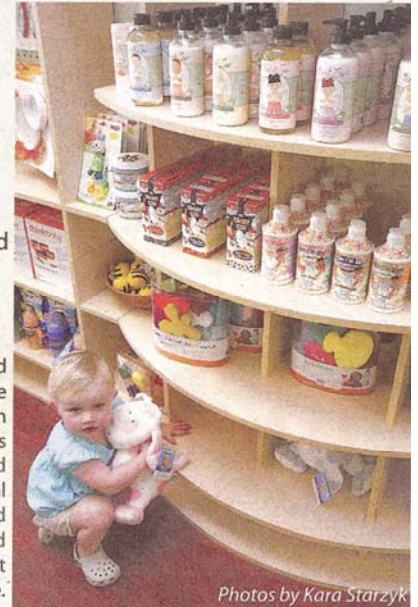

The eco-shop offers a range of Green baby and children's products that are non-toxic, BPA-free, phthalate-free, paraben-free, organic and eco-friendly. Owners, Karen and Michael Stanley create the fresh baby foods on the seasonal menu that offers three stages of purees, toddler meals and nutritionally dense finger foods, which are packaged in chemical-free containers. Products can also be purchased on line at www.yummyinmytummy.com.

"The baby loves the food. She grabs the spoon when I feed her. There are no pesticides and preservatives, and I am able to read all the ingredients on the label," said Yummy In My Tummy customer, Jen Esteban who feeds eight-month-old Catalina Esteban, Yummy In My Tummy, 100 percent organic, additive and preservative-free baby food at the Yummy In My Tummy store.

"I was raised in an organic family and want to raise my kids with the same values. I want to give my children the best start and I believe that's organic. This store makes organic food accessible as well as non-chemical baby lotions, washes and toys," said Sara Miller whose 21-month-old daughter Ava Miller plays with toys at the Yummy In My Tummy store.
