Yummy in My Tummy ~ Organic Baby & Toddler Food

Yummy In My Tummy says they offer a organic baby food. I feel they offer so much more than that!!

I received entrees, stews, breakfast and desserts delivered frozen to my door. I was expecting it all to be for my toddler, but was pleasantly surprised. For breakfast the next morning we all enjoyed organic apple cinnamon waffles and organic

carrot muffins. For lunch that day we ate organic pizza and organic salmon. Each meal contains health benefits of fruits and veggies and taste great for the kids and parents alike!

The quantities are perfectly portioned for myself and my seven year old, as well as, our toddler. I must say my favorite was the Dutch Apple. I felt like I was eating apple crisp - yet this was healthy!

Prices are great and best of all the deliver!! Easy prep work as well...just take it out of the box and put it in the oven (in the container it came in) - which makes for easy clean up too!

Indigenous Designs ~ Organic Clothing for the Family

SAVE HANDMADE!

For thirteen years, Indigenous Designs has been committed to "supporting and preserving fair trade wages and artisan cooperatives, investing in natural and organic fibers and environmentally-friendly dyes, and

spreading the beauty of handmade, Eco fashion."

I was sent a beautiful rust colored tunic that looked absolutely gorgeous on me. I love the feel of the fabric, it is so soft. When I wore the tunic out, I received several compliments on my outfit. I would recommend this company to everyone.

What I like most about Indigenous Designs is that they go above and beyond to be green. They honor both the people and the planet working with Cartesian cooperatives to offer a fair living wage. They are an all natural fiber company using wool, alpaca, silk, Tencel, and organic cotton.

Indigenous Designs has an exiting Spring collection as well as Men's and

Submit a photo of the area under a friend's sink and a 250-word description on why they deserve an under the sink makeover (e.g., she's concerned for the health of her family and the environment, the area under her sink a toxic wasteland, she's overwhelmed by the chaos of motherhood and wants to change but doesn't know where to begin, etc.), for a chance to win great prizes.

One lucky grand prize winner will receive a package that includes:

- An in-home consultation at the friend's house with Dr. Alan Greene, practicing pediatrician and specialist in green living
- A one year supply of Seventh Generation products for both the entrant and the friend in need
- A trip to New York City for the entrant and her friend that includes a one-night stay at the W New York – Times Square hotel

Elemental Herbs ~ Kids Sunscreen

Living in the sunny state of Florida and spending a month in the Colorado sun - I know the importance of sunscreen. I received a sample of Organic Kids Sunscreen from Elemental Herbs and I really liked it.

"Antioxidant rich, certified organic green tea leaves and rose hips, infused in certified organic extra virgin olive oil set this sunscreen apart from all others. It offers broad UVA/UVB protection with the added herbal benefits of skin rejuvenation. Chemical free and safe for sensitive skin. Available in SPF 20 Sport, SPF 22 Tinted, and SPF 20 Kids."

The non-greasy formula was great for my kids and I even liked that it didn't have the over-powering sunscreen scent. Just remember to shake it up and you're good to go!

Elemental Herbs is giving away a bottle of kids organic sunscreen to one of my readers. For your chance to win visit their site and then come back here and let me know another product besides the sunscreen you'd like to try.

Grounds For A Change

Grounds For A Change is a family owned and operated roasting coffee roasting business located in the Pacific Northwest. They roast their 100% Fair Trade, Organic coffee in small batches to ensure that you receive the freshest coffee possible. Their mission is "To support social equity and environmental sustainability through fair trade, organic, shade grown coffee."

Grounds For a Change sent me a three pack sampler to try out. First I brewed the coffee according to the directions, wow was it ever strong! I

knew I must have done something wrong because the coffee was very bitter with an earthy taste. I called my grandma, a coffee connoisseur, and she instructed me to use half of the suggested amount. A very big difference, but still too strong for me. I have been brought up in an era of sweet Starbucks and sugar and I am sure my coffee palate is not quite so distinguished. I offered the coffee to my grandma and she LOVES all three flavors, all the while shaking her head at me. Grounds For a Change has offered the same sampler for you coffee connoisseurs out there!

Grounds For a Change offers a coffee of the month club, sampler varieties, several flavours and aromas to choose from.

To win a 3 pack sampler of Grounds for a change Coffee, go to their [site](#)

Maggie's Organics ~ Organic Clothing for the Family

"Maggie's Organics was founded in 1992 on the premise that all workers could be treated ethically and that clothing could be functional, beautiful and affordable and also constructed of environmentally sustainable materials. Seventeen years later, we are proud to say that our proposition has proven true: Our line of organic and fair trade socks, scarves, tights, loungewear,

legwarmers, tees, baby clothes, new stuffed animals and fashionable tops continues to fulfill and strengthen our founding principles."

I received a great organic baby rib tee dress in black. I'm 5'0 so it is not as flattering as it is a little longer on me. But it is the perfect little black dress to wear shopping, to the beach, out with friends - or whatever you choose! I love the versatility of it and that you can dress it up or down.

Maggie's Organics is giving away 3/4 Sleeved Criss-Cross top to one of my readers. For your chance to win visit their site and then come back here and let me know your favorite item.

Special bonus: if the winner is on Maggie's email list, facebook group, or twitter following at the time that they win, you'll receive a bonus pair of socks of your choice.

Tropical Traditions

Tropical Traditions sent me a 32 ounce jar of Gold Label Virgin Coconut Oil. I was a little unsure about how the coconut oil would taste, but I sure was suprised. The flavor is very light and almost sweet. You could eat it by the spoonful, and according to the book, Virgin Coconut Oil, that is just what you should do. In the book it states that coconut oil is benefical in more ways than one; it is antiviral, helps digestive health, lower cholesterol, increased energy levels and metabolism, and hypothyroidism.

This is just to name a few.

I used it in baking, making smoothies, mock dairy-free icecream, and frying. You can even use it to soften your skin and as a sunscreen! I am very excited to use this Tropical Traditions Coconut oil more often to get the increased energy and increased metabolism!!

In addition to coconut oil, Tropical Traditions also carries a wide variety of coconut products, other healthy oils, cleaning products and environment friendly items.
