My Compliments To The Chef!

Have you ever tried that questionable substance that companies try to pass off as [baby food](#)? I have, and I don't like it. Cute little jars line grocery

and package every container of organic baby food personally to ensure it's consistent with the Yummy In My Tummy Safety-Ensured System and compliant with our HACCP Program (Hazard Analysis and Critical Control Point).

The Yummy In My Tummy Safety-Ensured System is achieved by first using the most pristine organic produce available, Yummy In My Tummy roasts, bakes and simmers all products to prevent any loss of naturally-occurring vitamins and minerals in the cooking process.

The food is then packaged in BPA-free, phthalate-free, BHT-free, and BHA-free barrier containers and made available for in-store pick-up or convenient delivery service. To ensure safety and freshness, our products are also sent to a food lab for microbiological testing and shelf life analysis, so your Little Tummy always gets the best organic baby food possible!"
