## Yummy In My Tummy Review

Dec 1st, 2009 by [Tara Bucci](#)

Isabella and I were so happy to be one of the lucky reviewers of these [Yummy In My Tummy food products](#). ALL organic, [3 stages](#) for variety and truly yummy in your tummy! I even had some and LOVED the taste of all the products they sent us to try. I usually hate the taste of low fat and organic foods because of the flavors but with each product we reviewed I loved and so did Isabella. All of the [Yummy In My Tummy products](#) taste just like any other [Pizza](#), [Chicken fingers](#), [dessert](#) or [dipping sauce](#) that is not organic. One thing I love most about their products is the price. Usually when you buy organic, you pay for organic. Yummy In My Tummy is VERY reasonably priced. I am going to purchase the dried blueberries because I feel like I have to constantly throw them away after a couple of days if not used. Blueberries are Isabella's favorite fruit! These dried ones will fit perfect in her diet. 😊 We really enjoyed this review and absolutely recommend you try some too. I have also been reusing the plastic containers the food has come in. I put them in the dishwasher and they are perfect for on the go containers. A **15% discount code** can be used when you type in **BMB15** at checkout. [Yummy In My Tummy](#) is Stamped with Approval by Baby-Momma!

You two are so adorable! My son has a major food allergy, and there is a good chance my daughter does as well. Were any of these products manufactured in a facility that produces and kind of nuts or do the products contain any nut or nut based oil ingrediants?

I'm not sure. Let me contact my contact and get back to you to make sure. We definitely don't want any accidents! I will get right back to you 😊

Ok, here ya go Theta Mom 😊 Lots of info for you. I just copied and pasted from the email she sent me. Hope this helps!

Hi Tara. Sorry I didn't get back to you sooner and I am so glad to hear that your friends and readers are interested in our Yummy products! In terms of your reader's question, our facility is 100% nut free and there are no common tree nuts (i.e. almonds, brazil nuts, cashews, chestnuts, filbert/hazelnuts, macadamia nuts, pecans, pine nuts (pignolia nut), pistachios, walnuts) or products containing tree nuts used in our products. One of our Stage 3 dishes, the Creamed Spinach, utilizes Coconut Milk rather than cream. However, coconuts are not considered a tree nut per se, nor are they usually associated with allergies. In fact, it is most closely related to fruits such as peaches and cherries, which are known as "drupes". As for the many health benefits of coconuts, the "meat" of a coconut provides protein, zinc, phosphorus, iron, and B vitamins. It is also rich in lauric acid, which also happens to be the main fatty acid in breast milk and what makes it so digestible and helps to boost the body's immune system! However, if a Little Tummy is prone to allergies, we always recommend checking with their physician prior to trying this dish. Hope this helps! Thanks & have a Yummy night
